

### **Last term, we enjoyed...**

This term, we have enjoyed learning about animals, especially when did our own research and made our own animal information books. We liked learning about Lancaster and we know lots of facts about the landmarks in Lancaster. Our favourite lesson this term was drawing and painting the matchstick people for our L.S. Lowry project. We also enjoyed designing and making our own Mars Rover in our DT lessons. We were so proud of ourselves after our nativity and we enjoyed going to see other actors perform when we went to see Mother Goose at The Grand Theatre in Lancaster.

### **This term, we are looking forward to...**

This term, we are very excited to be learning about what we need to do to keep our bodies healthy. We will be learning about multiplication, division and money as mathematicians. In RE, we will be learning about Hinduism and explore how Hindu people show their devotion to deities. We will also be making our own Diva lamps out of salt dough. In English, we will be going on an animal adventure with the characters from The Wind in the Willows and bringing the characters to life when we make our puppets in DT. As artists, we will be learning how to draw a self-portrait like Pablo Picasso and learning how to print. We love learning and look forward to telling you all about it!

### **Key Vocabulary**

offspring, reproduction, growth, child,  
print, layer, perspective, position,  
size, layer ink, materials,  
portrait, arrange, squares, natural,  
manmade Hinduism, deities, God,  
Brahman, Mandir, arti (the ritual),  
puja tray, worship, shrine  
times, divide, groups of, sharing,  
pounds, pence
