

Last term, we enjoyed...

This term, we enjoyed learning about the Romans in our history lessons and we loved our visit to Ribchester Roman Museum to handle artefacts and visit Roman sites. In geography, we enjoyed learning about rivers and how people use them. We were very proud of the work we have done in English, including our writing of traditional tales. We also enjoyed learning about different state of matter in science and carrying out investigations.

This term, we are looking forward to...

This term, we are very excited to be learning about life in Victorian Britain. We are also excited to start our first science unit about electricity and have the chance to build circuits. This learning will also be helpful when we take on our design technology challenge this term. We are also looking forward to building on our knowledge of rivers and applying this to our landscape art project this term.

Key Vocabulary

population, dependence, industry,
labour, famine, trade, mill, primary
source, secondary source,
sound, source, vibrate, vibration,
travel, pitch (high, low), volume, faint,
